PREVENTATIVE MEASURES:

The Board of Directors and Leadership Team take their due diligence very seriously for protecting the health and safety of those we support. The following measures and supports are in place to reduce risk by eliminating conditions which may foster abuse:

1. Our abuse policy is reviewed yearly and as needed.
2. Our staff, volunteers and board of directors receive annual training on abuse as part of the Quality Assurance Measures Training.
3. Our staff, volunteers and board of directors endorse their knowledge and understanding of the Abuse, Person Supported Health and Safety, Person Supported Rights and Responsibilities, Feedback/Complaint Process policies annually.
4. Community Living Dryden-Sioux Lookout staff can access the supports of Behaviour Therapists to develop behaviour support plans for people whose support needs are complex and challenging.
5. New people supported coming in to service who are known to be challenging to support have protocols in place and staff are oriented to these protocols prior to initiation of service.

ALLEGED ASSAILANT/ABUSER IS ANOTHER PERSON SUPPORTED, CLD-SL WILL ENSURE THAT:

1. If the alleged assailant/abuser is another person served and it is suspected that there is a criminal act of abuse as outlined above then the same procedures for reporting to the police apply.
2. The person supported is deemed to have abused another supported person if criminal intent is suspected. If in doubt, consult with your Manager of Services.
3. Both the alleged victim and the alleged perpetrator are kept separate from each other (as far as possible);
4. Each person has the appropriate support, supervision and access to other professional resources (e.g. legal, medical, psychiatric, alternative service providers, etc.)

NOTE ABOUT FALSE ACCUSATIONS:

CLD-SL recognizes that in rare cases a supported person will present with a well-documented history of making frequent and false allegations against other supported persons and/or Agency staff. In this difficult situation, the Agency must protect the person from the possibility of actual abuse, and also those around him who are clearly at risk.

To do this, the manager and the support team will develop a protocol that will become part of the person's supported Personal Support Plan. The protocol will speak to the documented history in question, and it will ensure that future allegations are taken seriously but also subjected to certain tests that would not be part of the normal investigative process.

MANDATORY REVIEW:

All policies pertaining to the prevention; identification and reporting of abuse will be reviewed and updated, annually.
